

Using Faith to Overcome Obstacles – David Osmond

David Osmond, the nephew of Donny and Marie, has been involved with music his whole life. He began performing at the age of four. He has made appearances on several major networks and shows, including *Oprah*.

This talented musician was forced to put music on hold for several years due to a physical battle with Multiple Sclerosis.

Improvements in his health have now allowed him to place his focus back on music, and he recently finished writing and recording a solo album.

David will talk about overcoming obstacles while maintaining faith in our Heavenly Father, using examples from his life, his family, and his struggles with multiple sclerosis.
